

Remarks

In the outstanding Official Action, the Examiner rejected claim 1 under 35 USC 101 as claiming the same invention as that of claim 1 of prior U.S. Patent No. 6,690,960.

In response, Applicants have amended claim 1 so that it is no longer coextensive in scope with claim 1 of 6,690,960. More particularly, Applicants have amended claim 1 so that the video mixing device of the system is capable of selectively mixing the virtual image and the real image into an output image, whereby the output image comprises either one of the two images exclusive of the other, or a composite of both images wherein the virtual image and the real image are simultaneously displayed in registration with one another.

Accordingly, claim 1 is believed to be in condition for allowance, and allowance thereof is respectfully requested.

In the event that any fees may be required in this matter, please charge the same to Deposit Account No. 16-0221.

Thank you.

Respectfully submitted,

Margaret M. Slezak, Esq.
